

## Quality focused with a mission of serving our community

At Wingate Engineers, our passion is to advance our communities and the lives of our clients through industry-leading engineering services and the highest level of integrity. Our experience ranges from the design, construction and management of commercial and residential facilities, municipal and government projects, utilities, site work, and stormwater management. We have a strong track record of delivering projects on time and under budget without ever sacrificing the quality of our work.

We Value: the well-being of our community; our relationships with our clients; and our reputation of integrity and honesty.
